

Unilink provides domestic and international freight solutions and it's a registered minority owned transportation service provider with offices located in San Antonio, TX, Plano, TX, and Monterrey, Mexico.

Unilink Transportation prefers to operate in the contractual market, providing carriers who will provide drop trailer services year around. We can of course provide spot rates and live loads upon request as well.

We provide full truckload services for the 48 U.S. states as well as Mexican markets. We also provide import/export Ocean services from Europe and Asia to ports in Mexico and the U.S. We're SmartWay certified with revenues north of \$64M.

The values and capabilities listed below are what we bring to our customers since inception in 2001. These also are reflective of our consistent growth.

- Great service providing 98% on time pickup and delivery performance assuring customers receive their product on time.
- GPS tracking utilizing macro-point and/or four kites assuring customers know where their loads are at all times.
- 24/7 operations which means your loads are managed and monitored around the clock until delivery.
- Carrier capacity available to our customers in areas where normal capacity is tight and other 3pl's fail.
- Ability to move large volumes of loads by utilizing our carrier relationships.
- Unilink can provide competitive rates.
- Knowledge of current transportation markets, willing to share that information with our customers.
- Customized reports to include operational and performance dashboards.
- E.D.I compliant both standard and customized documents.
- Provides drop trailer service at origin/destination.
- Cross border transportation services in/out of Mexico. We also manage customs documentation.
- Domestic transportation services within the U.S. utilizing dry van, refrigerated and flat bed equipment.
- NVOCC services and air freight services
